

Hi 2017 AP Computer Science Principles!

We will be learning a lot next year about Computer Science and how Technology impacts our present day life as well as how we might be impacted in the future.

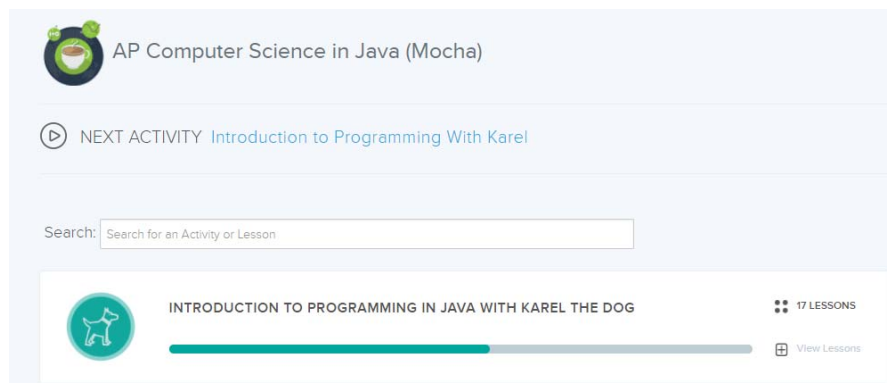

Our topics include:

- Abstraction
- Algorithms
- Creativity
- Data
- Global Impact
- Internet
- Programming

We will be starting our year with Programming in Java. To get you ready for this, your summer assignment is to do some programming with Karel the Dog. Just do the section on Karel the Dog. We will be using Karel the robot and the Eclipse development environment when you return to school in the fall, so this summer assignment will help you be ready.

I've provided a link below to help you get started, hopefully you are as excited as I am to begin.

You can sign up using the following link: <https://codehs.com/go/2756>

AP Computer Science in Java (Mocha)

Search:

 INTRODUCTION TO PROGRAMMING IN JAVA WITH KAREL THE DOG 17 LESSONS

I will be using Edmodo throughout the year to post assignments. My Edmodo code for this class is: **k2qjdj**

If you have any questions over the summer, feel free to send me an Edmodo message and I will get back to you.

I look forward to seeing you in September.

Mrs. Roberts
