

## Challenge II

Step 1: Create a 5-6 slide PowerPoint presentation in which you illustrate the main points of your Challenge I essay. Here are a few considerations:

- \* Your target audience is a group of Honors-level students who have already read *Have Spacesuit* – *Will Travel* (so no plot summary is necessary).
- remember to include a title slide
- each of your major essay points should be illustrated on individual slides
- if you include quotes or images in your slides, include a references slide

Step 2: Save your file as First initial Last name Learning and Innovation Submission Date. For example, if Jane Smith were submitting the document on July 1, 2016, she would use the following file title:

J Smith Learning and Innovation 7-1-16

Step 3: Submit your assignment by turning it in to the Edmodo drop box.

If you need help with any of these steps, send your summer assignment instructor a direct post via Edmodo. Be as specific as you can about your problem; that will make it much easier to help you.
